

Component

The diagram illustrates a component with a blue rectangular border. Inside the border, at the top, is the word "Component" in a large black font. On the left side of the border, there are two yellow circular nodes labeled "x" and "y". Two thick yellow arrows point from the left into these nodes. On the right side of the border, there are two orange circular nodes labeled z_1 and z_2 . Two thick orange arrows point from these nodes to the right. A blue line connects the top of the border to node "x", and another blue line connects node "y" to the bottom of the border. A thick blue line also connects the top and bottom of the border on the right side, passing between the z_1 and z_2 nodes.
